

守夜犬

NIGHT WATCH

每个 AI 都想让你更努力。它想让你停下来。
Every AI makes you work more. This one makes you stop.

产品原型
PRODUCT PROTOTYPE

一只会看见疲惫、尊重选择，陪你去休息的机器狗

A robot dog that notices fatigue, respects your choice, and walks with you toward rest. It turns sensing into a gentle invitation—not a judgment.

发现疲劳
NOTICE

征得同意
CONSENT

安全陪伴
ESCORT

人工接管
OVERRIDE

01 · FROM DETECTION TO CARE

从“检测”到“关怀”

A humane journey from noticing fatigue to keeping watch

01 发现疲劳 / Notice

观察持续趋势，不用一帧定义一个人。
Read patterns over time, never a person from one frame.

02 温柔邀请 / Ask

用非医疗化语言表达关切。
Offer a gentle, non-clinical invitation.

03 征得同意 / Consent

是否接受引导，始终由你决定。
You always decide whether to continue.

04 陪伴守护 / Escort & watch

前往确认过的休息区，现场人员始终可接管。
Guide safely, with people always in control.

02 · WHERE IT BELONGS

每一个不该被透支的夜晚

For every night that should not consume us

黑客松 / Hackathons

高强度协作中的低压力休息入口

深夜办公室 / Late-night offices

关怀来自环境，而不是绩效评判

高校期末周 / Finals week

让休息成为清晰而容易的选择

现在能做

WHAT IT CAN DO

- ◆ 持续疲劳风险评估
Ongoing fatigue-risk assessment
- ◆ 双语休息登记
Bilingual rest intake
- ◆ 空间地图与休息区标记
Spatial map and rest-zone marking
- ◆ 安全护送与人工接管
Safe escort and human override
- ◆ 可见的唤醒检查倒计时
Visible wake-up check countdown

我们的边界

OUR BOUNDARIES

- 同意先于行动
Consent before action
- 提醒不是诊断
Invitation, not diagnosis
- 关怀不是绩效考核
Care, never performance scoring
- 不确定时停下，而不是冒险
Stop under uncertainty—never improvise risk
- 现场人员承担最终责任
Humans remain accountable
